

## Citation Bravo

The Citation Bravo is capable of cruise speeds over 460 mph and can move you quickly and comfortably to your destination. The Citation Bravo allows you to fly at altitudes as high as 45,000 feet, enough altitude to travel well above inclement weather.

In addition to its speed and altitude capabilities, the Citation Bravo has a range of 1,856 statute miles. Other features are trailing link landing gear, which make landing and taxiing comfortable and smooth, fully reclining leather seats for up to 7 passengers, and a private lavatory.
